### **Welcome to Reston Radiology Consultants patient portal (RRC Patient Portal)**

This portal provides our patients with a secure web-based way to access your health records, including demographic and insurance information, imaging results, medications, allergies, etc. By utilizing the RRC Patient Portal, you will be able to review the results of your tests, communicate with our facilities via secure messaging, and update your personal or insurance information with ease.

#### **Accessing the RRC Patient Portal:**

You will need to provide a valid email address when you check in, which will serve as your user name. To start using the patient portal, logon to <https://docportal.restonradiology.com/portal/Account/Logon> or go to our website and *click* the **Web Portal Access for Patient Access** link on the home page. Enter your email address, and your default password: **rrcportal**

To ensure confidentiality, you will be prompted to change your password and pick a security question when you first log into the system. To obtain access to your results, you must verify your personal information by *clicking* on SUMMARY and PATIENT SUMMARY. Once you have verified that your name, date of birth and address are correct, you are ready to view your personal health information and imaging results! *Click* on DEMOGRAPHICS at the top of the page, then *click* the EXAM tab and a complete list of your exams will populate.

Most results are available within 48 hours of your exam. **Note:** Reports for exams prior to July 2010 will not be displayed. Contact the facility directly for copies of results prior to this date.

We are pleased to be able to offer this service to you. If you have any questions or concerns, please contact your local facility:
